**What attracted you to apply to Salesforce (250 -500 words) \***

As Salesforce is famous for it's CRM and Cloud based solutions, I'm looking it as an opportunity to upskill myself and also contribute to the progress of the company through my hard work, punctuality and existing skill set.

Below are few key points which attracts me to apply for Salesforce

Company Culture: As Salesforce is known for its inclusive and values-driven culture. I'll like to be the part of these

Innovation and Technology: Salesforce is at the forefront of technological innovation, constantly developing new products and features to meet the evolving needs of businesses. Being an excited person about the technology and innovation I find Salesforce as right place to contribute my ideas for the growth of an Organisation

Career Growth: Salesforce offers numerous opportunities for career development and growth. The company provides training programs, certifications, and internal mobility options, enabling employees to continually enhance their skills and advance their careers and these attracts me to gain growth in my career.

Work-Life Balance: Most important, Salesforce promotes a healthy work-life balance and supports employee well-being. The company offers various programs and initiatives, such as flexible work arrangements, wellness programs, and employee assistance programs, to help employees maintain a fulfilling work-life balance. These makes my interest grow for the Company.

**What attracted you to apply to this role (250-500 words) \***

As Salesforce is famous for its CRM and Cloud based solutions, I'm looking at it as an opportunity to upskill my development skills and also contribute to the progress of the company through my hard work, punctuality and existing skill set.

Below are few key points which attract me to apply for the role of Software Engineer Intern.

**Contribute using my existing engineering skills:** As an aspiring software engineer, I'm looking to contribute in an organization using my existing engineering skills.

**Innovation and Technology:** Being an engineering student and enthusiast about the technology and innovation I find this role as a right place to contribute my ideas for the growth of an Organization.

**Applying my problem solving skills:** Problem solving is an important skill as an engineer and I look at the Software Engineer role as a correct place to apply my problem solving skills.

**Focus on Continuous Learning:** As an Information Technology Engineer I see that Salesforce encourages a culture of continuous learning and personal development. The company offers a wide range of resources, including online learning platforms and internal training programs, to help employees acquire new skills and stay updated in their fields. This will help me a lot to learn new things.

**Career Growth:** Salesforce offers numerous opportunities for career development and growth. The company provides training programs, certifications, and internal mobility options, enabling employees to continually enhance their skills and advance their careers and these attract me to gain growth in my career. Through this role I'll like to explore more technologies and get growth in my career.

**Global Presence and Career Opportunities:** Salesforce has a global presence with offices and customers around the world, which will help me network with studios people across the world. And collaboratively work with them to develop and design the systems.

**Any current or prior experience? (Company Name)**

Web Development Trainee at Brand Technology, Ahmednagar, India:

- Worked on web development using latest industry frameworks and tools
- HTML, CSS, Bootstrap, MySQL

**Do you intend to enroll in a postgraduate degree following completion of this internship term? \***

Maybe/TBD
